- 303 — Lulu
Use: Self-publishing and print-on-demand platform. Sell books worldwide.
- 304 — Pressbooks
Use: Online book formatting for PDF, ePub, and print.
- 305 — Draft2Digital
Use: Distribute ebooks to Amazon, Apple Books, Kobo, and more.
- 306 — Smashwords
Use: Ebook publishing and distribution platform.
- 307 — BookBaby
Use: Full-service self-publishing: editing, printing, and distribution.
- 308 — Leanpub
Use: Write and publish in-progress tech books or online courses.
- 309 — Notion
Use: Notes, wikis, task management, and databases — all in one.
- 310 — Evernote
Use: Organize notes, documents, and research across devices.
- 311 — OneNote
Use: Digital notebooks by Microsoft. Cross-device syncing.
- 312 — Obsidian
Use: Markdown-based note system for building a knowledge base.
- 313 — Roam Research
Use: Note-taking app for networked thought and Zettelkasten.
- 314 — Logseq
Use: Open-source tool for outlining, journaling, and productivity.
- 315 — Tana
Use: Structured, AI-powered note-taking and project management.

316 — Milanote

Use: Visual notes, moodboards, and creative project mapping.

317 — Coda

Use: Docs that act like apps. Build trackers, workflows, etc.

318 — Airtable

Use: Spreadsheet meets database. Content calendars, CRMs, etc.

319 — ClickUp

Use: All-in-one project and task management system.

320 — Trello

Use: Drag-and-drop board for organizing tasks and workflows.

321 — Asana

Use: Manage work, projects, and team collaboration.

322 — Todoist

Use: Smart to-do list for personal and work productivity.

323 — TickTick

Use: Task manager with built-in calendar and Pomodoro timer.

324 — Things

Use: Premium to-do app for Mac/iOS with a clean interface.

325 — Google Tasks

Use: Simple task list integrated with Gmail and Calendar.

326 — Microsoft To Do

Use: Personal task list with reminders and cloud sync.

327 — Sunsama

Use: Daily planner that integrates tasks from all tools.

328 — Motion

Use: AI calendar that schedules tasks automatically.

329 — Reclaim

Use: AI tool to find time for habits, focus, and work.

Use: Visual calendar with Notion integration.

331 — Cron (Notion Calendar)

Use: Minimalist pro calendar with keyboard shortcuts.

332 — Fantastical

Use: Natural language calendar for Apple devices.

333 — TimeHero

Use: AI-scheduled planning for teams and personal use.

334 — Taskade

Use: Collaborative to-do lists, notes, and mind maps.

335 — MeisterTask

Use: Beautiful Kanban-style task manager.

336 — Nifty

Use: Manage docs, timelines, tasks, and goals in one place.

337 — Basecamp

Use: Classic team collaboration platform.

338 — Wrike

Use: Enterprise-grade project management with time tracking.

339 — Monday.com

Use: Visual work OS for workflows, CRM, and HR.

340 — Jira

Use: Dev-focused issue and sprint tracking system.

341 — Shortcut

Use: Lightweight Jira alternative for dev teams.

342 — Clubhouse (now Shortcut)

Use: Dev workflow planning and issue tracking.

343 — Toggl Plan

Use: Timeline-based task and project planning.

344 — GanttPRO

Use: Build Gantt charts for project scheduling.

345 — TeamGantt

Use: Simple drag-and-drop Gantt project tool.

346 — ClickTime

Use: Track team hours and improve productivity.

347 — Clockify

Use: Time tracking app with unlimited team use (free).

348 — Harvest

Use: Track time and bill clients with built-in invoicing.

349 — RescueTime

Use: Analyze how you spend time online and improve focus.

350 — Timely

Use: AI-powered time tracking that auto-logs activity.

351 — Focusmate

Use: Virtual coworking. Stay accountable with real-time partners.

352 — Serene

Use: Focus app with goal setting and session blocking.

353 — Brain.fm

Use: AI-generated music to boost focus and productivity.

354 — Noisli

Use: Background noise mixer for work and relaxation.

355 — A Soft Murmur

Use: Customize ambient sounds to improve concentration.

356 — myNoise

Use: Advanced soundscapes to block distractions and boost focus.

357 — Coffitivity

Use: Recreates coffee shop background noise.

358 — FlowState

Use: Writing app that deletes text if you stop typing.

359 — Cold Turkey

Use: Distraction blocker for websites, apps, and the internet.

360 — Freedom

Use: Schedule blocks of focus time across devices.

361 — Forest

Use: Grow virtual trees by staying focused.

362 — Pomofocus

Use: Customizable Pomodoro timer for productivity bursts.

363 — Toggl Track

Use: Simple and powerful time tracking tool.

364 — Beeminder

Use: Track goals with financial penalties for failure.

365 — StickK

Use: Create accountability contracts for your goals.

366 — Habitica

Use: Gamify your life with task completion rewards.

367 — Loop Habit Tracker

Use: Free Android app for habit streaks and insights.

368 — HabitBull

Use: Habit and goal tracker with charts and reminders.

369 — Streaks

Use: iOS habit tracker with strong focus on daily routines.

370 — Productive

Use: Build good habits with scheduling and tracking.

371 — Tally

Use: Simple app to track anything in tally format.

372 — Way of Life

Use: Spot habit patterns and improve behavior with charts.

373 — Fabulous

Use: Habit coaching app for wellness and productivity.

374 — Brite

Use: Combines journaling, goal tracking, and habits.

375 — Notion Templates (official & user-made)

Use: Boost Notion setup with ready-made dashboards.

376 — Gridfiti

Use: Premium Notion templates for productivity, finance, etc.

377 — Easlo

Use: Popular Notion creator known for minimalist layouts.

378 — Notion Everything

Use: Large library of curated Notion templates.

379 — Red Gregory

Use: Free Notion tips and advanced template guides.

380 — The Productivists

Use: Premium productivity templates for Notion.

381 — Gumroad

Use: Sell digital products, like courses, templates, and files.

382 — Payhip

Use: Sell downloads, coaching, and memberships.

383 — Sellfy

Use: Simple storefront for selling digital & physical products.

384 — Stan Store

Use: Link-in-bio tool with built-in digital selling.

385 — BigCartel

Use: Lightweight online store builder for creatives.

386 — Ecwid

Use: Add ecommerce to any site or social profile.

387 — Podia

Use: All-in-one platform to sell courses, webinars, and downloads.

388 — Teachable

Use: Build and sell online courses and coaching.

389 — Thinkific

Use: Create course websites with quizzes and drip content.

390 — Kajabi

Use: Premium platform for selling courses, coaching, and memberships.

391 — LearnWorlds

Use: Interactive online course builder for creators and educators.

392 — Skool

Use: Private community and course platform with gamification.

393 — Circle

Use: Host online communities with events, chats, and courses.

394 — Mighty Networks

Use: Create communities with paywalls and online courses.

395 — Heartbeat

Use: All-in-one community, docs, and video calls.

396 — Geneva

Use: Group chat platform for clubs and creators.

397 — Discord

Use: Real-time voice and text chat for communities.

398 — Slack

Use: Business messaging with integrations and channels.

399 — Telegram

Use: Broadcast channels, bots, and private chats.

400 — WhatsApp Communities

Use: Organize group chats under one umbrella.

401 — Google Docs

Use: Online document editing with real-time collaboration.

402 — Google Sheets

Use: Spreadsheet tool with cloud sync and functions.

403 — Google Slides

Use: Make presentations collaboratively online.

404 — Dropbox Paper

Use: Docs and task lists integrated with Dropbox.

405 — Zoho Writer

Use: Powerful cloud document editor.

406 — OnlyOffice

Use: Microsoft Office-compatible cloud document suite.

407 — CryptPad

Use: Encrypted online office suite.

408 — Notion AI

Use: Add AI-powered writing help to your Notion docs.

409 — Grammarly

Use: Grammar and clarity checker with AI suggestions.

410 — Hemingway Editor

Use: Make your writing bold and clear.

411 — QuillBot

Use: AI tool to rephrase and summarize text.

412 — ProWritingAid

Use: Style, grammar, and readability feedback.

413 — Jasper

Use: AI writing tool for blog posts and marketing.

414 — Copy.ai

Use: AI copy generator for ads, emails, and more.

415 — Rytr

Use: Budget-friendly AI writing assistant.

416 — Writesonic

Use: AI writing with built-in image and chatbot features.

417 — Ink for All

Use: AI content generator with SEO focus.

418 — Peppertype

Use: Generate marketing copy and content ideas.

419 — HyperWrite

Use: AI writing assistant with tools for emails, research.

420 — Wordtune

Use: Rewrite, shorten, or expand sentences for clarity.

421 — SudoWrite

Use: AI fiction writing assistant for authors.

422 — NovelAI

Use: Story generation and character building for writers.

423 — AI Dungeon

Use: AI-driven interactive storytelling game.

424 — ChatGPT

Use: Chat-based AI for Q&A, writing, research, etc.

425 — Poe

Use: Aggregates multiple AI models in one chat interface.

426 — Perplexity

Use: AI-powered search engine with sources.

427 — You.com

Use: Search engine with AI summarization and apps.

428 — Bing Copilot

Use: AI-enhanced search with contextual answers.

429 — Claude

Use: AI assistant for long documents and complex tasks.

430 — Merlin

Use: Adds AI tools to your browser for productivity.

431 — Compose AI

Use: Autocomplete and rephrasing for email and docs.

432 — TextCortex

Use: Multilingual AI writing assistant.

433 — Otter.ai

Use: Transcribes meetings and generates summaries.

434 — Fireflies

Use: Meeting transcription and AI notes.

435 — Grain

Use: Highlights and summaries from Zoom calls.

436 — Fathom

Use: Free Zoom call recorder with AI summaries.

437 — tl;dv

Use: Timestamp and transcribe meetings for later review.

438 — Supernormal

Use: Auto-summarize Google Meet and Zoom calls.

439 — Read.ai

Use: AI meeting summaries and sentiment analysis.

440 — Jam.dev

Use: Bug reporting and video feedback tool for teams.

441 — Scribe

Use: Auto-generate step-by-step process documentation.

442 — Tango

Use: Create visual SOPs while you work.

443 — Loom

Use: Record screen and camera for quick video messages.

444 — Sendspark

Use: Personalized video messaging for outreach.

445 — Tella

Use: Record beautiful presentation-style videos.

446 — Vidyard

Use: Create and share video walkthroughs for sales/support.

447 — Vmaker

Use: Lightweight screen recording and webcam app.

448 — VEED

Use: Online video editor with auto-captions and effects.

449 — Kapwing

Use: Collaborative video editing with AI tools.

450 — InVideo

Use: Templates and stock content for fast video creation.

451 — Pictory

Use: Turn text or blog posts into videos automatically.

452 — Lumen5

Use: Convert articles into social videos.

453 — Animoto

Use: Drag-and-drop video creation with templates.

454 — FlexClip

Use: Online video editor and slideshow maker.

455 — Canva Video

Use: Create videos inside Canva with animations and text.

456 — Clipchamp

Use: Microsoft video editing platform (free & web-based).

457 — Runway

Use: AI video editor with inpainting and green screen.

458 — Descript

Use: Audio and video editor with transcription-based editing.

459 — Riverside

Use: Studio-quality podcast and video recordings in the browser.

460 — Zencastr

Use: Remote podcast recording tool with video support.

461 — SquadCast

Use: High-quality remote podcasting platform.

462 — Alitu

Use: Podcast maker with automatic audio cleanup.

463 — Podbean

Use: Podcast hosting, analytics, and distribution.

464 — Buzzsprout

Use: Easy-to-use podcast hosting and stats.

465 — Anchor (now Spotify for Podcasters)

Use: Free podcast recording and distribution.

466 — Transistor

Use: Podcast hosting with team support and analytics.

467 — Castos

Use: Podcast hosting with WordPress integration.

468 — Acast

Use: Hosting and dynamic ad insertion for podcasts.

469 — Backtracks

Use: Advanced analytics for podcast performance.

470 — Headliner

Use: Make audiograms and social clips from podcasts.

471 — Descript Studio Sound

Use: Remove background noise and enhance voices.

472 — Krisp

Use: AI noise cancellation for video/audio calls.

473 — Cleanvoice

Use: Remove filler words and stutters from audio.

474 — Adobe Podcast Enhance

Use: Improve audio recordings automatically (beta).

475 — Soundtrap

Use: Online music and podcast studio by Spotify.

476 — BandLab

Use: Cloud music production studio.

477 — Audiotool

Use: Collaborative browser-based music creation.

478 — Soundation

Use: Create music with loops and real-time collaboration.

479 — Splice

Use: Royalty-free samples and loops marketplace.

480 —Looperman

Use: Free loops, samples, and acapellas.

481 — Pixabay Music

Use: Free stock music for content creators.

482 — Uppbeat

Use: Free music for YouTube with no copyright claims.

483 — Mixkit

Use: Royalty-free music, sound effects, and video templates.

484 — Bensound

Use: Free and paid music for commercial use.

485 — Incompetech

Use: Kevin MacLeod's royalty-free music library.

486 — Free Music Archive

Use: Curated free music under open licenses.

487 — Musopen

Use: Public domain classical music recordings and sheet music.

488 — YouTube Audio Library

Use: Free music and sound effects for videos.

489 — Freesound

Use: Collaborative sound effect library.

490 — Zapsplat

Use: Free and premium sound effects and music.

491 — Envato Elements

Use: Subscription with unlimited stock assets.

492 — Motion Array

Use: Video templates, music, and motion graphics.

493 — Artlist

Use: Royalty-free music for filmmakers and creators.

494 — Epidemic Sound

Use: Licensed music for YouTube and online creators.

495 — Soundstripe

Use: Subscription for stock music and sound effects.

496 — AudioJungle

Use: Pay-per-track royalty-free music marketplace.

497 — PremiumBeat

Use: High-quality curated music tracks.

498 — Pond5

Use: Massive library of media including music, video, and SFX.

499 — Storyblocks

Use: Stock video, audio, and templates for creators.

500 — TunePocket

Use: Budget-friendly royalty-free music library.

501 — TidyCal

Use: Affordable calendar booking tool with payments.

502 — Calendly

Use: Schedule meetings without back-and-forth emails.

503 — SavvyCal

Use: Beautiful, flexible scheduling with personalization.

504 — Koalendar

Use: Simple and clean booking page alternative to Calendly.

505 — Harmonizely

Use: Booking tool that connects with CalDAV calendars.

506 — Doodle

Use: Coordinate meeting times with polls.

507 — When2meet

Use: Fast availability poll tool, no login required.

508 — Cal.com

Use: Open-source scheduling platform.

509 — Chili Piper

Use: Scheduling for sales and revenue teams.

510 — OnceHub

Use: Advanced rules for lead qualification & scheduling.

511 — Book Like A Boss

Use: Personal landing page with integrated calendar & payment.

512 — Acuity Scheduling

Use: Scheduling and client management with reminders.

513 — YouCanBook.me

Use: Syncs with your calendar for booking links.

514 — SimplyBook.me

Use: Online booking and business management.

515 — Amelia

Use: WordPress booking plugin for appointments.

516 — Trafft

Use: Appointment scheduling with team management.

517 — Bookafy

Use: Cloud appointment scheduling for teams and services.

518 — Appointlet

Use: Group scheduling and client meeting management.

519 — Setmore

Use: Free online scheduling platform for businesses.

520 — Fresha

Use: Booking and payments for salons and wellness.

521 — Square Appointments

Use: Scheduling, POS, and payments in one.

522 — Wix Bookings

Use: Schedule services through your Wix website.

523 — HubSpot Meetings

Use: Integrates meeting booking with CRM.

524 — GoReminders

Use: Appointment reminders via SMS/email.

525 — ReminderCall

Use: Automated reminder system for clinics and businesses.

526 — TextMagic

Use: Bulk SMS and appointment alerts.

527 — Twilio

Use: Programmable communications APIs (SMS, voice, video).

528 — Plivo

Use: SMS and voice automation platform.

529 — Vonage APIs

Use: Messaging and call APIs for developers.

530 — Bandwidth

Use: Voice and messaging APIs for businesses.

531 — ClickSend

Use: Send SMS, email, fax, and voice messages.

532 — MessageBird

Use: Omnichannel communication APIs.

533 — Sendinblue (Brevo)

Use: Email marketing with SMS and automation.

534 — Mailchimp

Use: Email campaigns, landing pages, automation.

535 — ConvertKit

Use: Email marketing for creators.

536 — MailerLite

Use: Budget-friendly email platform with automations.

537 — GetResponse

Use: Marketing automation, landing pages, webinars.

538 — Moosend

Use: Email campaigns with advanced segmentation.

539 — ActiveCampaign

Use: Powerful marketing and sales automations.

540 — Constant Contact

Use: Email and event marketing for small businesses.

541 — AWeber

Use: Simple email newsletters and landing pages.

542 — Drip

Use: Ecommerce email and SMS automation.

543 — Klaviyo

Use: Advanced targeting and automation for ecommerce.

544 — Omnisend

Use: Email and SMS marketing for Shopify stores.

545 — SendGrid

Use: Transactional and bulk email API.

546 — Postmark

Use: Fast and reliable transactional email.

547 — Mailgun

Use: Email API service for developers.

548 — Amazon SES

Use: Scalable cloud email sending from AWS.

549 — Mailtrap

Use: Email testing tool for staging and QA.

550 — Litmus

Use: Preview and test your emails before sending.

551 — Email on Acid

Use: Optimize email rendering across devices and platforms.

552 — Mailsac

Use: Disposable email and testing inboxes.

553 — Temp Mail

Use: Free temporary email inboxes.

554 — Guerrilla Mail

Use: Disposable email address service.

555 — 10 Minute Mail

Use: Inbox that auto-deletes after 10 minutes.

556 — EmailOctopus

Use: Budget-friendly email marketing built on AWS.

557 — Loops

Use: Modern email tool for SaaS products.

558 — Buttondown

Use: Simple email newsletters for solo creators.

559 — Substack

Use: Publish newsletters with paid subscriptions.

560 — Beehiiv

Use: Newsletter platform with growth and monetization tools.

561 — Revue (retired)

Use: Previously Twitter-integrated newsletter service.

562 — TinyLetter

Use: Simple email newsletters, minimal features.

563 — Flowrite

Use: AI email writing tool for fast replies.

564 — Ellie

Use: Gmail-based AI email assistant.

565 — Superhuman

Use: High-speed email client with keyboard shortcuts.

566 — Missive

Use: Team email and chat collaboration.

567 — Front

Use: Shared inbox with automation and analytics.

568 — Helpwise

Use: Manage shared inboxes and customer queries.

569 — Hiver

Use: Gmail-based helpdesk tool.

570 — Gmelius

Use: Gmail inbox sharing, CRM, and automation.

571 — MailTrack

Use: Email tracking and read receipts for Gmail.

572 — Yesware

Use: Email tracking, templates, and analytics for sales.

573 — Mixmax

Use: Email productivity tools: tracking, sequences, templates.

574 — Boomerang

Use: Schedule emails and reminders in Gmail.

575 — FollowUp.cc

Use: Follow-up reminders and email tracking.

576 — Hunter.io

Use: Find and verify professional email addresses.

577 — Voila Norbert

Use: Email finder and verifier.

578 — Clearbit Connect

Use: See email sender details inside Gmail.

579 — Snov.io

Use: Email outreach, verification, and automation.

580 — FindThatLead

Use: Lead generation and email discovery.

581 — Lusha

Use: B2B contact and company info database.

582 — Apollo.io

Use: Sales intelligence and outreach platform.

583 — ZoomInfo

Use: B2B data and buyer intent platform.

584 — Seamless.ai

Use: AI-powered lead generation.

585 — Clay

Use: Build personalized outreach workflows using AI.

586 — Lemlist

Use: Cold email personalization and automation.

587 — Instantly

Use: Unlimited cold email outreach with inbox rotation.

588 — Smartlead

Use: AI warmup and smart inbox rotation for cold email.

589 — Mailreach

Use: Email warm-up tool to improve deliverability.

590 — Warmup Inbox

Use: Boost cold email domain reputation.

591 — Mailwarm

Use: Gradually warm up new email accounts.

592 — InboxAlly

Use: Improve open rates with inbox training.

593 — GlockApps

Use: Email deliverability and inbox testing.

594 — MXToolbox

Use: DNS and email blacklist tools.

595 — Mail-Tester

Use: Check email spam score and deliverability.

596 — DomainTools

Use: DNS lookups, WHOIS, and domain security.

597 — WHOIS Lookup by ICANN

Use: Check domain registration info.

598 — Namecheap

Use: Register and manage domain names.

599 — Google Domains (migrating to Squarespace)

Use: Buy and manage domains (being phased out).

600 — Cloudflare Registrar

Use: Secure domain registration with no markup.

601 — Porkbun

Use: Affordable domain registration with free privacy.

602 — Name.com

Use: Domain registration with email and website add-ons.

603 — Hover

Use: Clean interface for domain management and renewals.

604 — GoDaddy

Use: Domain registration and hosting platform.

605 — Dynadot

Use: Buy and manage domains with easy tools.

606 — Gandi.net

Use: Ethical domain registrar with free WHOIS privacy.

607 — Squarespace Domains

Use: Domains integrated into Squarespace websites.

608 — Carrd

Use: Build one-page websites quickly.

609 — Linktree

Use: Bio link page for Instagram, TikTok, and YouTube.

610 — Beacons

Use: Bio link site with payments and media features.

611 — Bio.fm

Use: Visual and block-style bio link page.

612 — Taplink

Use: Link-in-bio site with messengers and forms.

613 — Solo.to

Use: Simple and clean personal bio links.

614 — ContactInBio

Use: Bio page with forms, payments, and messengers.

615 — Koji (now Link in Bio by Beacons)

Use: Bio page with mini apps for creators.

616 — Link in Profile

Use: Add links to Instagram images.

617 — Campsite

Use: Customizable link-in-bio landing page.

618 — Milkshake

Use: Mobile-first bio website builder.

619 — Lnk.Bio

Use: Minimal and fast link-in-bio tool.

620 — Tap.bio

Use: Create card-style Instagram bio links.

621 — Carrd + Gumroad

Use: Sell directly through one-page sites.

622 — Webflow

Use: No-code website builder with full design control.

623 — Framer

Use: Visual site builder with interactive animations.

624 — Wix

Use: Drag-and-drop website builder for all uses.

625 — Squarespace

Use: All-in-one platform for sites, stores, and blogs.

626 — Weebly

Use: Website builder owned by Square (commerce-focused).

627 — Strikingly

Use: Build stunning one-page websites.

628 — Dorik

Use: Simple site builder with CMS and templates.

629 — Bookmark

Use: AI-powered website creation tool.

630 — Zyro

Use: Affordable builder for portfolios and stores.

631 — Webnode

Use: Website creation in minutes.

632 — Jimdo

Use: AI builder for personal or business websites.

633 — Tilda

Use: Beautiful landing pages and websites.

634 — Unbounce

Use: Landing page builder for lead generation.

635 — Instapage

Use: High-converting landing pages with heatmaps.

636 — Leadpages

Use: Drag-and-drop landing pages with integrations.

637 — Swipe Pages

Use: Mobile-optimized landing page builder.

638 — Launchaco (by Namecheap)

Use: Simple landing page tool (now sunset).

639 — Carrd Pro

Use: Advanced elements and custom domains on Carrd.

640 — Readymag

Use: Web publishing for magazines, portfolios, and presentations.

641 — Universe

Use: Mobile-first grid-based website builder.

642 — Dorik CMS

Use: Lightweight CMS built into a visual builder.

643 — Typedream

Use: Notion-style visual site builder.

644 — Feather

Use: Simple blogging platform with newsletter.

645 — Ghost

Use: Open-source publishing platform for newsletters and blogs.

646 — Substack Notes

Use: Social microblogging from Substack writers.

647 — Medium

Use: Blog publishing and writing platform.

648 — Hashnode

Use: Developer-focused blogging with custom domains.

649 — Dev.to

Use: Tech community and blogging for coders.

650 — Bear Blog

Use: Minimal, privacy-focused blogging.

651 — Write.as

Use: Simple writing platform with anonymous publishing.

652 — Telegra.ph

Use: Anonymous blogging by Telegram.

653 — Pen.io

Use: Publish web pages instantly.

654 — Penzu

Use: Private online journaling.

655 — Day One

Use: Award-winning personal journal app.

656 — Journey

Use: Journal app with mood tracking and calendar.

657 — Diaro

Use: Journal and note app with backup and cloud sync.

658 — Notion Journal Template

Use: Reflect, write, and track habits inside Notion.

659 — Grid Diary

Use: Structured journaling with prompts.

660 — Reflectly

Use: AI-powered journaling for mental health.

661 — Moodnotes

Use: Cognitive behavioral therapy-based journaling app.

662 — Stoic

Use: Mental health and mindfulness tracker.

663 — Calm

Use: Meditation, sleep stories, and breathing exercises.

664 — Headspace

Use: Meditation and mindfulness for beginners.

665 — Insight Timer

Use: Free guided meditations and timers.

666 — Balance

Use: Personalized meditation coach app.

667 — Aura

Use: Mental health support with sleep and focus tracks.

668 — Breethe

Use: Lifestyle-focused meditation and mental wellness app.

669 — Simple Habit

Use: Meditation for busy people and stress relief.

670 — Ten Percent Happier

Use: Meditation for skeptics and practical mindfulness.

671 — Waking Up (Sam Harris)

Use: Mindfulness and rational spirituality app.

672 — Mindvalley

Use: Personal development courses and transformation.

673 — MasterClass

Use: Learn from experts and celebrities.

674 — Skillshare

Use: Creative and business video courses.

675 — Udemy

Use: Massive open marketplace for courses.

676 — Coursera

Use: University courses and certificates.

677 — edX

Use: Harvard, MIT, and more online courses.

678 — FutureLearn

Use: Free and paid online learning from universities.

679 — Khan Academy

Use: Free learning in math, science, and more.

680 — Brilliant

Use: Interactive learning in math and logic.

681 — Codecademy

Use: Learn to code interactively.

682 — freeCodeCamp

Use: Learn web dev and earn certifications for free.

683 — Scrimba

Use: Interactive code screencasts with live editors.

684 — LeetCode

Use: Coding challenges and technical interview prep.

685 — HackerRank

Use: Practice coding and prep for interviews.

686 — Codeforces

Use: Competitive programming platform.

687 — Exercism

Use: Coding practice with mentor feedback.

688 — Edabit

Use: Beginner-friendly coding challenges.

689 — Project Euler

Use: Math-based coding challenges.

690 — Codewars

Use: Community-powered coding katas and challenges.

691 — Codingame

Use: Solve challenges in the form of games.

692 — Replit

Use: Browser-based coding and hosting platform.

693 — Glitch

Use: Build and remix full-stack apps in the browser.

694 — JSFiddle

Use: Online playground for HTML, CSS, and JavaScript.

695 — CodePen

Use: Front-end dev playground for creative code.

696 — StackBlitz

Use: Fast, online dev environment for modern web apps.

697 — GitHub Codespaces

Use: Full VS Code dev environment in your browser.

698 — CodeSandbox

Use: Online IDE for web development projects.

699 — Gitpod

Use: Prebuilt dev environments with Git integration.

700 — Sourcegraph

Use: Search across codebases with context and AI.

701 — Sourcery

Use: AI code review and refactoring suggestions.

702 — Codiga

Use: Code analysis and automated code reviews.

703 — SonarCloud

Use: Cloud code quality and security scanner.

704 — DeepSource

Use: Continuous static code analysis for teams.

705 — CodeClimate

Use: Maintainable code quality monitoring.

706 — GitHub Copilot

Use: AI pair programmer by GitHub and OpenAI.

707 — Cursor.sh

Use: AI-powered coding editor.

708 — Replit Ghostwriter

Use: AI assistant inside the Replit IDE.

709 — Tabnine

Use: AI code completion for multiple editors.

710 — CodeWhisperer

Use: Amazon's AI coding assistant.

711 — Pieces

Use: AI that organizes code snippets and context.

712 — Kite (defunct)

Use: Formerly an AI code assistant.

713 — Polycoder

Use: Open-source AI coding model.

714 — Stack Overflow

Use: Developer Q&A platform.

715 — Stack Exchange

Use: Network of expert Q&A sites (math, science, etc.).

716 — Superuser

Use: StackExchange for computer power users.

717 — AskUbuntu

Use: Ubuntu-specific Q&A platform.

718 — DevDocs

Use: API and documentation reference in one site.

719 — Dash

Use: Offline API documentation viewer.

720 — Zeal

Use: Offline documentation tool for Linux users.

721 — MIT OpenCourseWare

Use: Free online courses and materials from MIT.

722 — Stanford Online

Use: Courses and lectures from Stanford University.

723 — Harvard Online

Use: Learning programs from Harvard.

724 — Yale Open Courses

Use: Free access to Yale lecture videos.

725 — Open Yale Courses

Use: Introductory courses recorded in real classrooms.

726 — Saylor Academy

Use: Free courses and certificates.

727 — Class Central

Use: Aggregator of free university-level courses.

728 — Academic Earth

Use: Curated educational videos from top universities.

729 — OpenLearn

Use: Free courses from The Open University.

730 — Alison

Use: Free certifications in various topics.

731 — FutureMe

Use: Write letters to your future self.

732 — 750 Words

Use: Online journaling to build a writing habit.

733 — One Sec

Use: Pause before opening addictive apps or sites.

734 — Freedom.to

Use: Block distractions on all devices.

735 — StayFocusd

Use: Chrome extension to block time-wasting websites.

736 — BlockSite

Use: App and browser extension for blocking distractions.

737 — Cold Turkey Blocker

Use: Intense blocking for hardcore focus sessions.

738 — RescueTime

Use: Automatic time tracking and productivity reports.

739 — Clockify

Use: Time tracking for teams and freelancers.

740 — Toggl

Use: Easy time tracking with reports.
